2026 Family Financial Contributions

Dear Parent/Guardian,

Teaching and learning preparations for 2026 are well underway, with exciting growth, improvement and innovation to all curriculum areas being carefully planned.

As such, we respectfully invite you to make your 2026 financial contribution to support the teaching and learning programs for your daughter.

Schools provide students with free instruction to fulfil the standard curriculum requirements, and we want to assure you that all contributions are voluntary.

We sincerely thank you for all your past support, this has made significant difference to the school and the programs we provide.

Financial contributions contribute to

- ***resources and programs that enhance and enrich the curriculum***
- ***extra-curricular events that add to student experience and school culture***
- ***Enhancement of physical environment***

Payment of Contributions can be paid via instalment options, including paying in 10 equal monthly instalments or 20 fortnightly instalments. We anticipate this will help families with budgeting, of course, payment in full remains an option, if preferred.

Any questions, please contact our Business Manager.

Yours sincerely,

Linda Brown
Principal
